**21 Day Catholic Environmental Justice Challenge**  
Learn, Act and Pray for Environmental Justice –  
April 23-May 16

*Walk with other Catholics as we learn, pray, and take action for environmental justice.*

In his encyclical *Laudato Si'*, Pope Francis invites all people to act on behalf of creation. This call to action is grounded in the principle of integral ecology—the idea that environmental, social, political, and economic systems are interwoven—and sustained by a sense of wonder before the interconnected nature of all life. The environmental justice movement similarly asks us to view the world as interconnected and prophetically calls us to change the systems that create the unjust distribution of environmental hazards.
